Professional Summary

Final-year B.Tech Computer Science student (2027) building reusable, scalable full-stack applications with the MERN stack, RESTful API design, and JWT authentication. Strong foundation in Data Structures, Algorithms, and Object-Oriented Programming, with 150+ problems solved on GeeksforGeeks and LeetCode. AI Foundation certified and seeking a Full Stack Developer/SDE role.

Education

Raj Kumar Goel Institute of Technology — Ghaziabad, Uttar Pradesh
Bachelor of Technology (Computer Science and Engineering) — *CGPA: 7.77/10 Expected 2027*

Projects

StudyNotion | ***MERN Stack, Redux Toolkit, Tailwind CSS, JWT, Cloudinary, Razorpay***
GitHub Live Demo

- Architected and independently developed a production-style MERN EdTech platform featuring Student, Instructor and Admin dashboards.
- Engineered secure RESTful APIs using Express.js, MongoDB and JWT authentication with Role-Based Access Control.
- Integrated Razorpay payment gateway and Cloudinary for scalable media management.
- Built a responsive React and Tailwind CSS frontend with Redux Toolkit, OTP-based email verification, bcrypt password hashing and deployed the application on Vercel and Render.

ShopEasy | ***MERN Stack***

GitHub Live Demo

- Developed a full-stack e-commerce platform using the MERN stack with secure JWT-based authentication and authorization.
- Designed and implemented 15+ RESTful API endpoints connecting the React frontend with a MongoDB backend using Express.js and Mongoose.
- Built core e-commerce features including product management, shopping cart, checkout workflow, and protected user routes while validating APIs using Postman.
- Created a responsive user interface with React.js and integrated frontend and backend services to deliver a seamless shopping experience.

Technical Skills

Programming Languages: C, C++, JavaScript
Frontend: HTML, CSS, React.js, Redux Toolkit, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC
Database: MongoDB, Mongoose, SQL (Basics)
Tools: Git, GitHub, VS Code, Postman, Cursor
Cloud: Vercel, Render, Cloudinary, AWS Cloud (Foundational)
Core Subjects: OOPS, DBMS, Operating Systems, Computer Networks

Training & Certifications

- DSA Training Program – GeeksforGeeks (20 Days)
- Artificial Intelligence – Infosys (Sept 2025)
- Oracle AI Foundation Associate (Aug 2025)
- Intro to IT & AWS Cloud – Coursera (Dec 2025)

Achievements

- Solved 150+ coding problems on GeeksforGeeks and LeetCode.
- Regular participant in coding contests organized by the college technical society.
- Debugged real-world programming issues during Error Hunt conducted by Nebula Society.
- Designed and built an RC Car for the Robomania technical event.
